SAMPLE DEMONSTRATION — not an operational decision

ONE ROUTE. AN ACCOUNTABLE NEXT STEP.

Apopka

Orange County · Census tract 177.03 · GEOID 12095017703

NOT YET REVIEWED | Medium evidence confidence

Why this area was flagged

POVERTY ESTIMATE

43.7%

±11.4 percentage points
90% interval 32.3–55.1%

LOW INCOME + LOW ACCESS

Straight-line: Flagged
Driving: Flagged

½ mile urban / 10 miles rural

Poverty screening cutoff: 17.0% (four-county Q75). Active lens: straight-line; conservative lower-bound mode off. SNAP participation: 21.5% ±7.5 pp, context only.

SNAP enrollment gap · likely under-enrolled

Expected 35.5% · Actual 21.5% ±7.5 pp · Gap -14.0 pp

Five-fold held-out ridge; gap = actual − expected. Outreach hypothesis only: shortfall exceeds SNAP MOE plus held-out model-error allowance.

Top associations versus training-fold average (not causes): Poverty rate +14.2 pp; Median household income (log scale) +7.5 pp; Unemployment rate -0.7 pp.

Shortfall rule: > SNAP MOE + 5.5 pp; MOE <10 pp; relative CV ≤0.30. Not a confidence interval. Expected participation among all households, not eligibility, food need or proven under-enrollment. ACS 01/2020–12/2024; associations, not causes. Verify locally.

Evidence, not a dispatch order. ACS is sample-based; actual tract sample size is not supplied. A wide MOE does not prove a small sample. Store-access flags do not establish current pantry demand, food affordability, stock or service capacity.

Human review and next step

Owner / status	Unassigned / Needs verification
Area-label confidence	High · 81% largest place-area overlap; tract ≠ neighborhood

Local observations — Unverified user-entered input

No local observations entered. Validate existing services before selecting a site.

Sources & limitations. Census ACS 01/2020–12/2024; USDA SRAM released 07/2026, SNAP-store snapshot 06/2025, population base 04/2020. SRAM measures access to SNAP-authorized stores, not supermarket-only access. The Central Florida adult reliable-transportation rate is unavailable. Geometry/labels use Census place/CDP and official Orlando polygons, not equivalent neighborhood boundaries. No partnership, site suitability or unmet demand is inferred. Local review is required.
