SNAP sign-ups

Fewer sign-ups than expected

About 22 in 100 households here get SNAP. Similar neighborhoods usually have about 36 in 100.

Why it matters: Some eligible families may not be signed up. A SNAP sign-up event here could help.

Main reason we expected more: High poverty for this area

> This is an estimate to check with local partners, not proof.

How we got this

Actual React evidence component, file-rendered; not a live-browser screenshot.
